Islom Abdullaev

Backend Developer

ABOUT ME

Hello, I'm Islom Abdullaev. I have graduated the Full stack course at Bobir Akilhanov Tech Academy 3 months ago and prepared a lot, learned some other technologies based on my position during this period. Currently I'm about to start my career in this IT sphere

WORK EXPERIENCE

I have 1 month of experience and now working as internship at Qwerty Al-Fajr

Right now we are working on constructual project with my team.

These are my projects did a month ago:

E-COMMERCE

- It took me a month to finish this project
- Added many functionalities like CRUD, Add to cart, Order and so on
- It was mainly build with DRY principles

- Project link:
- 164.92.129.5

CAR-BUSINESS PROJECT

- It took me 3 weeks to finish this project
- I connected the PostgreSQL database to my project, and it is nicely optimized
- It was mainly build with functions, all of them working fine

- Project GitHub link:
- <https://github.com/islomabdullaev/carzone-2022>

MINI-PROJECTS

- I HAVE MINI PROJECTS
- GitHub link:
- <https://github.com/islomabdullaev/>
